The Daily Union Deseret

Local and Miscellaneous.

THE DAILY UNION DESERET is the pioneer daily newspaper of Utah. Its immense circulation in every mining camp and city of Nevada and Idaho, to which it gives the telegraph news from the West, and a general view of the Pacific papers, makes it the most authoritative newspaper in the West. We guarantee absolute dependability of our office. It will save them and us considerable annoyance and trouble.

THE TWINS.

DEDICATED TO AARON AND NAT.
In form and feature, face and limb,
I grew so like my brother,
That folks got taking me for him,

And each one for the other,
It puzzled both with this and that;

It reached a dreadful pitch;
For **FOR DORDONSKY** see

And not a soul knew which.

One day to make the master worse,
Before our names were fixed,
As we were being washed by nurse,
We got completely mixed.

And so you see, by fate's decree,

Or rather, nurse's whim,

My brother John was christened "me"

While I was christened "him."

The fatal illness ever dogged

Our footsteps when at school,

For I was always getting flogged,

Since John turned out a fool.

In fact, year after year the same

Award mistake went on;

And when I died the neighbors came

And buried brother "John."

Col. Babcock, of Lieut. Gen. Grant's staff, arrived in this city by yesterday's coach. We have not learned which way he goes from here.

Asst. Gilbert, senior member of the well known firm of Gilbert & Sons, arrived in this city, from the East, Sunday afternoon. No man in this city has more friends than the "Commodore," and all are rejoiced to see him once more.

PENSONAL. — Yesterday, Hon. James M. Cavanaugh started for Montana. We are pleased to announce that there is some prospect of his returning to Salt Lake and making it his permanent home. We are sure he could not make a better move, and it he does conclude to do so, our city would gain one of the most brilliant lawyers on the Plains.

INDIAN AFFAIRS. — The St. Joseph Union learns from a gentleman just arrived from the Plains that the Indians in the neighborhood of Ash Hollow have been having considerable difficulty among themselves. At a grand pow-wow, 300 young braves refused to yield to the older members of the tribe, who favored going to Fort Laramie to the great peace treaty, and pointed for the war-path; whereupon the wise heads surrounded the youngsters, killed their horses, burst their tents, and killed one or two of the ringleaders. It was rumored that the Cheyennes and Arapahoes had refused to have anything to do with the treaty, and it is feared that they may prove troublesome.

(From the Territorial Enterprise.)

Storey County District Court of Nevada.

A NEGRO ON THE JURY BENCH.

On the 7th inst., the case of Chouraine et al. the Bullion Gold & Silver Mining Company was called up in the District Court, before Judge Burbank. Upon proceeding to empanel a jury for the case it was discovered that a colored resident of this city, named Wm. A. Brown, had been included in the venire of two hundred jurors. This fact was discovered by the aforesaid Brown being drawn in the usual manner, as one of his special jury from the venire of two hundred before mentioned.

A very animated discussion ensued between the counsel, both exhibiting considerable warmth in their arguments, and the point was finally submitted to the honorable Judge for decision.

Judge Burbank said in this matter he was of the opinion that as far as the qualifications of jurymen were concerned, the people of the State of Nevada could only be governed by the Constitution of the State, which clearly declared colored men disqualified from serving on a jury. He therefore discharged Brown, who chance took him leave.

Eastern Items.

A rumor is circulating in Germany that, in case of war there, Gen. McClellan, who at present sojourns in Dresden, will be appointed Commander-in-Chief of the Saxon army.

There are at present five Indian delegations in Washington, representing the Creek, Seminole, Choctaw, Chickasaw, and Cherokee.

The time of laying the corner stone of the Douglas monument, at Chicago, has been changed from the 13th of June to the 4th of July.

Mrs. John Wood, Mrs. Vining, her mother, Miss Madeline B. Horiques, Miss Louisa Burke, Artemus Ward, Maggie Mitchell, and Rose Eyling, are all in tending to visit Europe during the present summer. Mrs. Wood recently disposed of her private residence in New York, to a nephew of George Peabody for \$24,000. It is understood to be the lady's intention to remain in England permanently.

The building of a new Executive Mansion is contemplated at Washington, the White House, now occupied by the President, to be used as a fire proof building for the Treasury Department.

Advise of the 25th instant from Mazatlan, Mexico, reports that robberies and murders continue in that vicinity, and plunder and revenge are indulged in on both sides. The imperialists hold the towns in the country most affected by these depredations.

Some papers have recently given circulation to the statement that the Morris Advertiser has at the head of its columns placed Mr. G. W. Pease as candidate for the Presidency in 1865. The Advertiser stands the Morris as an unequalled falsehood.

Death of Gen. Lewis Cass.

Our dispatches inform us that this distinguished warrior and statesman died at his residence in Detroit at four o'clock last Sunday morning, aged eighty-three years. Few men have been more intimately connected with the affairs of the American nation, or have left behind them a better record than General Cass.

From Oregon.

THE OREGON ELECTORAL. — The vote in the Oregon election is too close to determine which side has won till the returns are all in. The **Oregonian** of the 6th has the following:

"So far as heard from the Union State ticket has 600 to 700 majority. In the south, Josephine, Coos and Curry have not been heard from, but will probably offset each other. Umatilla, Union, Baker and Grant counties, in the eastern part of the State, are yet to be heard from, and will not be likely to give a majority of more than 200 either way. We think the Union State ticket is elected by a majority of at least 500. Of the State-Society, we have 14 members out of 22, with a chance for further gains. At present it is impossible to tell which party has a majority in the House. It is very close and cannot be settled for several days."

Private information gives a Democratic majority of between 600 and 700 this side of the mountains, so there is about a stand off in the estimates. — *Idaho Statesman*.

The Le Baume Process.

Mr. Dilly, of Rocky Bar, informs us that Mr. Chas. LeBaume has succeeded in getting his kiln and arastras running, and has worked out a small lot of rock by his new process with most flattering success. The figures are as follows:

Two thousand pounds from the Ada Elm, and one thousand pounds obtained from several other ledges, in all three thousand pounds of ordinary rock, yielded \$308.75. Mr. Dilly says that the process is looked upon with universal favor in that county. It was with much difficulty that Mr. LeBaume could obtain a few thousand pounds of rock of the miners there upon which to experiment at first, but now after the first trial he has all the rock offered that he can work. Such is the varied measure of encouragement which a little success brings a man. The rock experimented upon was not picked, but ordinary rock, such as from which the mills would take about fifty dollars per ton. — We have not imitated the Colorado and Nevada papers by publishing three or four columns a week about this new process, but have quietly given the facts publicity as they came to our knowledge, and Mr. LeBaume has been as quietly though industriously at work putting the process to a practical test. We think its utility well established. — The facts stated above certainly indicate its success. We have never indulged in any hifalutin representations about the result of its success, but let us take this occasion to say that if further experiments prove as satisfactory as the first, no other process yet heard of begins to compare with it in importance and benefit to the mining interest. Before many days we shall lay further facts in relation to the subject before the public. — *Idaho Statesman*, 12th.
